Terrazzo

By Zenith Design Studio

The Organic Elegance of Terrazzo

Terrazzo's beauty lies in its ability to marry diverse elements; non-linear organic shapes nested in irregular clusters, transform mere fragments into a patterned canvas: Each piece contributes a unique brushstroke, yet together, they create a harmonious masterpiece. The Terrazzo range is an assortment of ottomans in contrasting heights, shapes and sizes, with backrest options creating visual interest as well as support.

The extra-large Terrazzo with table is distinguished by a discreet tabletop that subtly follows the organic lines of the ottoman.

Employing biophilic form, Terrazzo's design increases user connectivity to the natural environment through irregular shapes that work together to create a balanced visual serenity.

Terrazzo is an ottoman range with an organic asymmetric design language enabling small, medium and large pieces to be configured together to create an irregular yet cohesive statement.

These sublime soft edged chips that form terrazzo serve as the inspiration and namesake of the new seating collection from Zenith Design Studio.

As organisations increasingly seek soft and inviting forms that create relaxing, collaborative environments, Terrazzo offers a playful nesting of pieces for breakout spaces, foyers and casual meeting areas. Light and easily reconfigurable, Terrazzo can be arranged and moved as desired, adapting readily to meet the user's needs.

Zenith

Design

Studio

We're a design and experience centric studio who create furniture solutions based on our intimate understanding of the workplace and workplace behaviours. We apply our expertise in interior architecture and product development to create progressive, high performance workspace solutions.

In our Design Studio you'll meet our team of 30+ experienced product designers, mechanical engineers, product configurators, immersive experience developers and visual content creators. Our cyclical process of listening, investigating, experimenting, and learning, provides a proven platform for understanding the unique requirements of our clients.

Zenith | curators of the
modern workspace

We've worked with interior designers, architects and workplace curators for many years. Together, we've developed a range of internal workspace environments. We work alongside these curators of modern workspaces to redefine the environments where people live, work, socialise, interact and learn.

Contemporary workplaces have to combine leading edge technology and physical elements in a way that produces productive environments for organisations. And every organisation is unique. So before we recommend a solution, we work hard to understand the organisation and the people who define its culture.

Our local teams and showrooms deliver the support you need. Our global logistics guarantees the highest quality product, service and delivery schedules.
