

Lightly

Formway Design

Zenith

Lightly

Minimal in scale and environmental impact, but maximal in character and quality.

A super lightweight stacking chair that can seamlessly move from one occasion to the next. It uses the minimal amount of material in the maximum way to deliver an incredibly strong and durable chair with the lightest touch on the environment.

Treading lightly on the Environment

Lightweight, plant based and durable.

Formway for Noho have brought their diligent research, environmental focus and design innovation to Lightly, the first chair of its kind to be made with the plant-based polymer EcoPAXX. Made from highly CO2 absorbent castor bean plants, EcoPAXX has a 70% reduced carbon footprint compared to standard polymers. This incredible material makes up 74% of Lightly's weight.

At a diminutive 2.6kg, Lightly makes minimal use of material to maximise strength and durability.

An award winning, high-performance stackable chair with only the lightest touch on the environment. Post-consumer recycled waste is used in Lightly's resilient and UV stable seat.

Lightly exceeds the world's highest safety + durability standards and is manufactured in New Zealand to ensure more than 80% renewable energy use in production.

All packaging is made to be recyclable or compostable for the lowest environmental impact.

Fits how you sit

Whatever your posture, Lightly provides the comfort.

Lightly's curved back wraps, supports and subtly flexes. This gentle movement enhances wellbeing while supporting your lumbar. The seat is contoured to fit your body, with softly sloped edges reduce pressure build up.

Light & Nimble

At 2.6kg, Lightly's intelligent ultralight design makes it the ideal chair for all occasions. Lightly offers durability and strength using only the bare minimum of materials.

Lightly's scale fits modern living and has character to enrich any space.

It's minimal frame helps small spaces feel spacious, yet its generous stance and back shape brings a unique personality to any space.

Lightly's fine frame makes for a super-efficient stack of 10 chairs. It's small footprint means Lightly is there when you need it and can disappear when you don't.

FOR WAY

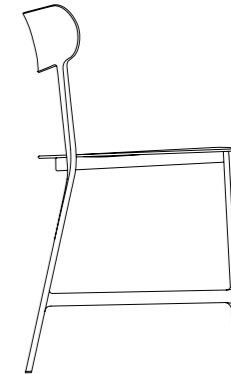

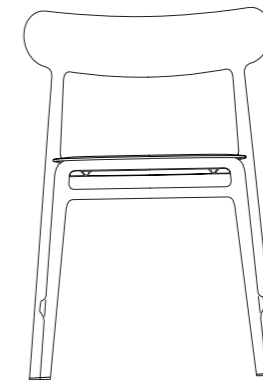

Formway is a research-led studio designing products for some of the world's most well-known and innovative furniture brands.

For over 50 years, Formway has focused on designing high performance seating and established a reputation for delivering world-class residential and commercial products.

Formway's designs are informed by insights gained through observation and consideration of human behavior. Their passion for people and design underpins their ability to create innovative solutions that fulfill genuine user needs.

Lightly comes in five colours, ranging from Ironstone, Stone, Mist, Glacier & Sunshine.

Award winning personality

Lightly has been recognised by the Best Awards with gold pins for Furniture and Sustainability, and The Chicago Athenaeum with a Green Good Design Award for Sustainability.

Zenith

We've worked with interior designers, architects and workplace curators for many years. Together, we've developed a range of internal workspace environments. We work alongside these curators of modern workspaces to redefine the environments where people live, work, socialise, interact and learn.

Contemporary workplaces have to combine leading edge technology and physical elements in a way that produces productive environments for organisations. And every organisation is unique. So before we recommend a solution, we work hard to understand the organisation and the people who define its culture.

Our local teams and showrooms deliver the support you need. Our global logistics guarantees the highest quality product, service and delivery schedules.

Showroom locations

Australia Melbourne, Sydney, Canberra, Brisbane, Perth, Adelaide

New Zealand Auckland, Wellington, Christchurch

Asia Hong Kong, Shanghai, Singapore, Shenzhen
