STONE Ceiling Panel

Zenith

Features:

A nature-inspired design that improves room acoustics while creating a distinctive visual appearance when layered. The set of stones was conceived by projecting shadows of actual streambed pebbles, and the result is beautiful organic outlines that easily fit almost any space.

Stone comes as a standard set of 4 and can only be ordered in a single archisonic colour.

ARCHISONIC® is a high-performance sustainable acoustic absorber made from up-cycled plastic bottles.

ARCHISONIC® is manufactured at the highest quality standards, yet slight colour and surface deviations caused by the high degree of recycled fiber are an inevitable part of the product characteristics and do not claim warranty services.

Material varies in colour when shown in monitor or in print.
