

Zenith

Platforma

Design by ZENITH Design Studio

Soft residential aesthetic

Platforma is a modular soft seating collection that introduces the welcoming aesthetic and comfort of residential furniture to a commercial setting.

Drawing its name from the solid oak base from which it sits, Platforma showcases clean architectural lines juxtaposed with relaxed upholstery.

Platforma is available in an armchair, lounge, modular lounge, chaise and ottoman and is adaptable to suit an array of spaces.

Optional planter box and complementing side and coffee tables are also available.

With the continual blurring of the lines between work and home life, what was once a rarity, it's now commonplace to find relaxing armchairs and living room-like break out spaces in today's offices. Platforma brings this aesthetic to the workplace for people to share, collaborate and socialise.

ZENITH

Design

Understanding and collaborating with the client ensures all outcomes are achieved.

ZENITH's capacity to research, prototype and test products is an integral part to their design process. By putting an emphasis on researching global trends and anticipating the ever-changing climate of technology in the work environment, ZENITH not only responds to demands in the market but pioneers and innovate.

With the capability and facilities to manufacture locally, ZENITH products are exceptionally designed, customised and thoroughly tested for product suitability and usability to suit individual needs and user requirements.

Platforma creates environments that inspire people to excel, fostering an inviting atmosphere.

Configurations

Choice, freedom, flexibility and control

With a range of sizes, with or without arms and left, right or angled configurations, Platforma can create the perfect setting for any space.

Zenith | curators of the
modern workspace

We've worked with interior designers, architects and workplace curators for many years. Together, we've developed a range of internal workspace environments. We work alongside these curators of modern workspaces to redefine the environments where people live, work, socialise, interact and learn.

Contemporary workplaces have to combine leading edge technology and physical elements in a way that produces productive environments for organisations. And every organisation is unique. So before we recommend a solution, we work hard to understand the organisation and the people who define its culture.

Our local teams and showrooms deliver the support you need. Our global logistics guarantees the highest quality product, service and delivery schedules.
