

NEXT STOP Lounge Range

Features:

Next Stop took the symmetry of train seats and the M3's lighting as inspiration for the seat and back cushions. The woollen textile uses the most sophisticated technology to make a tailor-made suit that virtually eliminates seams and waste. It is based on a scheme of cushions made of three seating pads in a textile cover, multiples of which are used to create longer or shorter bench-like seats.

Options:

- Armchair, Sofa, Modular Lounge, Benches
- Modular Lounge with left or right arm
- Interconnecting table, left or right terminal table, left or right corner table
- Linking piece
- Electrical Kit
