

DUPLEX Coffee Table

Features:

Duplex is the first collection by Sancal with the Valencian studio Mut: a small range of occasional tables that have been inspired by the architecture of Mies van der Rohe and Frank Lloyd Wright. The play on architecture reaches its climax when different tables of differing heights are placed over one another.

But even without a partner, each table boasts two "floors" which can be used to display all manner of objects. The metallic structures are lacquered and the marine plywood tops are veneered with ash. The upper trays are optional and can be used on various sized tables. Choose from our ample range of stains and lacquers.

Design: MUT for SANCAL

Warranty: 2 years

Certification: GECA

Finishes:

Structure: F1 Steel with a lacquer finish. Nylon stops.
Top and trays: marine plywood veneered in ash.
