

PHOULDS Chair

Features:

Elegance, poise and comfort were the words that guided the development of the Phoulds seating range.

The development calls for the meticulous joining of two pressed plywood shells to create the chair's structure. The range offers the diversity of both high and mid back shells and two distinctive support frames. The style of the chair makes a strong visual statement whilst its fine detailing and traditional material selection make it an excellent choice across workplace hospitality and retail environments.

Phoulds is made in the United Kingdom.
