

Yellow Diva Care & Maintenance

CP Series

CP ottomans, chairs and stools are suitable for indoor or outdoor use.

The steel frame is protected with a durable powder coat finish over a zinc plate substrate. For general care we recommend regular use of mild detergent & warm water applied with a soft cloth to wipe over the steelwork. Do not use harsh chemical or solvents. The double braided polyester yacht rope is marine grade & Australian made. For the first few years, ropes still contain thread coatings and lubricants from the factory that offer some protection from UV radiation, abrasion, and water absorption. Cleaning of the rope should therefore be limited to a freshwater rinse using a standard hose. Do not use bleach or highpressure power wash.

Avoid build up of leaf litter or other debris.

Hang Series

The plywood and timber components of the Hang range are protected with an e-zero satin acrylic lacquer. The steel components have a durable powder coat finish. The Hang Luxe range has natural stone components which should be handled with care. For general care we recommend regular use of mild detergent & warm water applied with a soft cloth. Do not use harsh chemical or solvents.

Milker Range

The Milker range of indoor stools, bench seats and tables are protected with durable, stain resistant OSMO natural plant based, non-toxic oil. The products are biologically degradable, sustainable and are food safe and harmless, even in direct contact with humans, animals and plants.

For general care we recommend regular use of mild detergent & warm water applied with a soft cloth. Do not use harsh chemical or solvents.

For rejuvenation or repair, lightly sand back surface of the timber using 400 grit sandpaper and re-apply OSMO Polyx Raw oil sparingly and buff in following direction of grain.

For further information on product maintenance please visit [Osmo Australia](#).

WB Series

WB Series of indoor and outdoor stools, bench seats and tables are made of solid timber protected with Livos natural plant based, non-toxic oils. The products are biologically degradable, sustainable and are harmless, even in direct contact with humans, animals and plants. The steel components have a durable powder coat finish (outdoor products are also zinc plated beneath the powder coat for added protection).

For general care we recommend regular use of mild detergent & warm water applied with a soft cloth. Do not use harsh chemical or solvents.

Indoor stools & bench seats (WBS1, WBS2, WBS3, WBB2, WBB3)

Timber is finished with Livos Universal Wood Oil #266

For rejuvenation, apply a few drops of Gleivo Liquid Beeswax # 315 or Bivos Oil Wax #375 to the surface and buff in.

Indoor tables (WBT1, WBT2, WBT4, WBT6, WBT8, WBTC)

Timber is finished with Livos Kunos Countertop Oil #243

For regular cleaning use Livos TRENA PH Neutral Cleaner in dilution as instructed

Outdoor stools, bench seats and tables (WBS1X, WBS2X, WBS3X, WBB2X, WBB3X, WBT4X, WBT6X, WBT8X, WBTCX)

Timber is finished with Livos Alis Decking Oil #579-072 (Oak)

Reapply with a cloth every 1-2 years or as required.
