EDO Modular Lounge

Zenith

Features:
Inspired by Tokyo's "dori" (streets) and "yokocho" (laneways), the EDO Streetscape pays homage to the city's sophisticated blend of technology and tradition. Offering a modular kit of parts for creating "utsukushi basho" (beautiful places) for people to work, learn and refresh.

EDO Streetscape offers spaces for flexible team settings, private team settings and quiet focus areas. Available with three base options – solid timber legs with rail with height adjustable glides, solid timber round legs or powder coated round legs with height adjustment option. Two-tone upholstery options are also available for the collection.

The two height options provide personal privacy for a quite focus working space or meeting area. An optional lumbar cushion is available for extra comfort and support. Powe
