

CTZ Table

Features:

CTZ sets new standards in the design of flip-top tables for meeting, conference and training rooms.

CTZ flip-top tables incorporate straight line structural beauty with smooth operation and handling. The unique leg design uses die cast aluminium to achieve high precision with a durable glossy finish. The patented synchro top mechanism of CTZ enables the leg stoppers to rise and lower within the height adjustable castors with the movement of the table top.

Hooks are standard on both ends of the CTZ flip-top table. With the top folded down, a basic storage shelf is created below. The parallel stack design enables the CTZ flip-top table legs to stack tightly together.

CTZ Table is made in Japan.

Design: TAKU KUMAZAWA for AXONA AICHI

Awards: Good Design Awards in Japan

Options:

- An optional cable management system and optional modesty panel is available for all three CTZ flip-top table widths and does not impair flipping the top or stacking.
- Optional modesty panel in black.
- Optional fingerprintless top finish in black wood, dark wood or solid black.
