

VOX Environmental Summary

Zenith

Sustainability in Action:

Zenith products and operations are aligned with global industry best practices. Each product design considers sustainability factors of the built environment and the health of the occupants.

Having all relevant certifications, Zenith is able to independently verify environmental and sustainability standards, technical design and safety adherence. All facets of Zenith's supply chain are compliant with industry guidelines for procurement, manufacture, and supply of products.

Certifications:

GREENGUARD Certified

Vox chairs have achieved GREENGUARD certification. This means Vox has met GREENGUARD standards for low emissions do not create polluted indoor air.

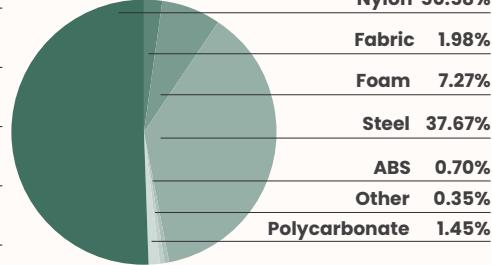

GECA Certified

GECA certification is a significant achievement, as the independent assessment looks at impacts across a product's entire lifecycle, from the extraction of raw materials to the end of its life. The third-party assessment procedures and robust standards mean that GECA certification is trusted and rigorous. GECA is also the only Australian member of the Global Ecolabelling Network (GEN).

Material Content:

The intention of our calculations is to supply the most precise recycled content possible, however market variables and manufacturing processes may result in slightly reduced or slightly increased recycled material. All recycled content is based on statistics provided by suppliers, industry data and ranges, or other universal information.

Material		Overall Weight (kg)	Weight of Recycled Material	Percentage of Recycled Material	Weight Percentage of Chair (%)
Plastic	Nylon	8.7	4.35	70.08%	Nylon 50.58%
	Polycarbonate	0.25	0.12	1.94%	Fabric 1.98%
