### CARE & MAINTENANCE

#### WOOD, LEATHER, METALS

Clean all the components with a damp cloth, if necessary with neutral diluted detergent. Do not use cleaning products with acid, alcohol, bleach, solvents or abrasive products that could scratch the material.

Immediately remove any liquid on the product and never let that water or other liquids sit on the product. Exposure to direct or indirect sunlight can change the colour of the materials.

Wood and leather are natural materials therefore small imperfections cannot be considered quality issues but peculiar characteristics of the materials: it is technically not possible to keep the same shade of colours in different products even if coming from the same batch.

#### FABRIC, SOFT LEATHER, ECO-LEATHER

Fabric, soft leather, eco-leather The fabric, soft leather and eco-leather used to upholster LAPALMA furniture comes from leading and international suppliers: every material has specific cleaning and maintenance instructions which are given by each manufacturer and available in their website.

Regular cleaning and maintenance is important in order to keep a product looking its best and to prolong its life.

#### LAMINATES

Laminates HPL Fenix® has specific cleaning and maintenance instructions available in the website of the manufacturer ARPA INDUSTRIALE SPA.

HPL has specific cleaning and maintenance instructions available in the website of the manufacturer ABET LAMINATI SPA.

Regular cleaning and maintenance is important in order to keep a product looking its best and to prolong its life.
