KISSEN CREATE

by Zenith Design Studio

Create.

Divide.

Define.

With floorspace at a premium, organisations are increasingly looking for fast and innovative ways to create task-centric settings that support the daily demands of their teams. Whether for huddles, conceptualising, training

or respite, the fast creation of zones that support productive connection is crucial. Kissen Create is a holistic collection of moveable walls that provide a rapid response to the spatial and functional needs of modern teams.

Zenith Design Studio

We're a design and experience centric studio who create furniture solutions based on our intimate understanding of the workplace and workplace behaviours. We apply our expertise in interior architecture and product development to create progressive, high performance workspace solutions.

In our Design Studio you'll meet our team of 30+ experienced product designers, mechanical engineers, product configurators, immersive experience developers and visual content creators. Our cyclical process of listening, investigating, experimenting, and learning, provides a proven platform for understanding the unique requirements of our clients.

Zenith

We've worked with interior designers, architects and workplace curators for many years. Together, we've developed a range of internal workspace environments. We work alongside these curators of modern workspaces to redefine the environments where people live, work, socialise, interact and learn.

Contemporary workplaces have to combine leading edge technology and physical elements in a way that produces productive environments for organisations. And every organisation is unique. So before we recommend a solution, we work hard to understand the organisation and the people who define its culture.

Our local teams and showrooms deliver the support you need. Our global logistics guarantees the highest quality product, service and delivery schedules.
