

DUO Lounge

Features:

DUO: Two families in one - Mini & Maxi. Both aesthetic and highly functional lounges, the main differences between the two models are the depth of the seat and the modules available. Its hidden feet make its voluminous silhouette appear to float gracefully above the floor.

Options:

- Mini version: Reduce footprint and each module can be used as a small, independent armchair
- Maxi version: With or without arms, end modules or corner modules and pouf. They can be combined in a variety of ways to create various configurations. The deep seat enables the playful use of scatter cushions or even extra back cushions
