MAGNUM Lounge Chair

Zenith

Features:

EstudiHac's José Manuel Ferrero might be Spanish, but his approach to design is akin to the bespoke tailoring of Mayfair. His new range of soft seating for Sancal, the Magnum, pays homage to this very British elegance. The gentleman designer has drawn inspiration from the glasses of cognac that members of exclusive London clubs cradle in their hands as they debate politics.

The collection consist of a lounge chair with a plinth base or a central column. Both versions has an auto-centre rotating mechanism. Even the smallest spaces can now enjoy luxurious comfort with these compact, fully upholstered pieces.

Options:

- Plinth or central column base
