Kvadrat Relate Screen

Relate Screen is a special version of the sophisticated twill-woven upholstery textile Relate developed for wall panels, desk screens and similar applications. Patricia Urquiola has created both designs to rethink the concept of melange. While Relate Screen is identical in composition to Relate, it has a more open structure. A faux-uni, it initially appears monochromatic yet, under closer inspection, reveals a diagonal weave which fluidly blends two different coloured yarns. Relate Screen's twill-woven construction captures a delicate sense of movement and subtly references the fashion world. The textile also features a soft hand and an expression that resembles natural fibres.

Composition: 100% Trevira CS

Width: Approx 170cm

Weight: 470 g/lin.

Suitable for contract use, Remix Screen is very durable and has a long life span. It is ideal for architects and designers who seek to configure interiors into different spaces with panels, screens and room-dividing furniture.
