

# SOLID Conference Table

**Features:**

The Solid Conference Table is defined by a sculptural totem style base that combines square and circular geometry to create a distinctive yet timeless form. Constructed from Pure ECO polyethylene, the 100% recyclable base is available in a range of colours and pairs seamlessly with tabletops in various sizes and material finishes.

Also available with a height-adjustable option, Solid is a versatile solution designed to support collaborative workspaces, meeting environments, and contemporary residential settings.
