BIP

Design by Zenith Design Studio

Zenith

SAY HELLO TO BIP

Bip began with a simple idea: to create a compact lounge collection that feels every bit as comfortable and inviting as something much larger.

Designed as an armchair and two-seater lounge, BIP brings together generous cushioning and considered proportions in a form that is easy to place across a variety of spaces.

Softly structured

A distinctive rounded-square silhouette gives Bip its compact form and approachable character.

Comfort built in

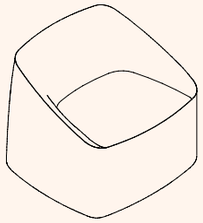

Its distinctive rounded-square silhouette gives BIP a soft, approachable character, while considered upholstery details, including subtle creasing and seam detailing, add texture and personality to the form.

Designed for workplace lounges, hospitality, education and third spaces, BIP is comfortable without feeling oversized, playful without being loud, and simple without being anonymous.

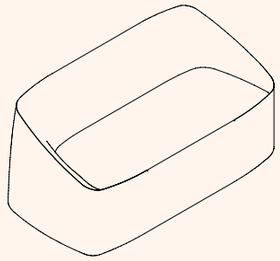

Compact, comfortable and full of character, BIP proves you don’t need to take up a lot of space to make an impression.

DIMENSIONS

Armchair
OW 780mm
OD 750mm
SH 45mm
SD 480mm
OH 710mm

Lounge
OW 1400mm
OD 750mm
SH 450mm

MATERIALS

Seat & Backrest: Upholstery

FINISHES

Seat & Backrest: Upholstered in Zenith Select Fabrics and leathers, COM or COL
Refer to Zenith Select Fabric specification

Zenith Design Studio

We’re a design and experience centric studio who create furniture solutions based on our intimate understanding of the workplace and workplace behaviours. We apply our expertise in interior architecture and product development to create progressive, high performance workspace solutions.

In our Design Studio you’ll meet our team of 30+ experienced product designers, mechanical engineers, product configurators, immersive experience developers and visual content creators. Our cyclical process of listening, investigating, experimenting, and learning, provides a proven platform for understanding the unique requirements of our clients.

Zenith

We've worked with interior designers, architects and workplace curators for many years. Together, we've developed a range of internal workspace environments. We work alongside these curators of modern workspaces to redefine the environments where people live, work, socialise, interact and learn.

Contemporary workplaces have to combine leading edge technology and physical elements in a way that produces productive environments for organisations. And every organisation is unique. So before we recommend a solution, we work hard to understand the organisation and the people who define its culture.

Our local teams and showrooms deliver the support you need. Our global logistics guarantees the highest quality product, service and delivery schedules.
