SOL-Bench

Zenith

Features:

SOL-MIX is designed around four key pillars of contemporary working behaviours: facilitating spaces for formal or informal meeting situations, social aspects of our daily routines, creative collisions for knowledge sharing, and moments requiring retreat and focus.

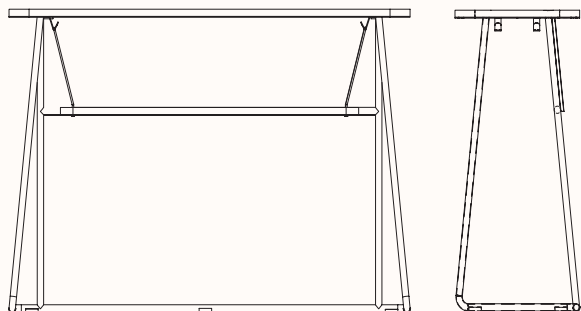

SOL-Bench is defined by its sinuous bent leg, exposed dot fastener, bag hook, perforated modesty panel and detailed with a metal trim. SOL-Bench enables an amphitheatre style meeting area by creating multiple tiers of seating. When used independently it is perfect for standing tasks, spontaneous meetings and lunch areas.

Design: ZENITH DESIGN STUDIO

Warranty: 5 years

Certification: GECA
