CANTO Modular Lounge

Zenith

Features:

Canto modular lounge is a versatile, sculptural furniture solution that blends industrial aesthetics with the warmth of upholstered comfort. Each module is inspired by the natural forms of quarried stone, featuring angular, compact shapes with curved cuts that form the backrest and seat. The system includes two upholstered modules, an armless piece, and easy-to-assemble connecting units, offering endless configuration possibilities. Made from 60% recycled polyurethane blocks, Canto's flexible design, rich textures, and expressive colors make it ideal for both private and public spaces, adapting to diverse interior styles with bold character.
