Zenith

MEKOS
Table

Features:

Toying with tension, the distinguishing feature of the Mekos table is the hoop leg form. The curved inner leg and soft lines more reminiscent of residential design, are contrasted with sharp, crisp lines expressed on the outside of the leg. Mekos tables function as either a collaboration table or dedicated workstation setting, providing a solution for focus or idea exchange, in both formal and informal spaces.

Options:

• Seated meeting tables, team tables and small tables
• Omni lid: Rectangular or capsule shape with or without sharknose edge
• Omni duct lite with omni lid
