# VESTIGE Table

Zenith

## Features:

The passage of time is an element that leaves a trace of the past as it sculpts matter. Note Design Studio have created a family of tables whose bases remind us of architectural figures of ancient civilizations, eroded over time. The sculptural base is formed by a rectangular block from which a cylindrical section has been subtracted from upper part. A tempered glass top rests delicately on the fine lines that have been exposed by the intersection of both geometric figures. An honest aesthetic that exhibits strength and beauty in simple ways.
