

CITA Benches

Features:

Cita Benches are versatile, collaborative seating solutions designed for offices and hospitality spaces. Inspired by the concept of a "cita" (meeting), they can be arranged individually or back-to-back with ash wood dividers, creating flexible micro-spaces that balance privacy and openness. Dividers can include integrated power kits for devices, while discreet coat hooks provide practical storage. It also comes with a height adjustable stoppers. With a solid, refined design, Cita Benches encourage face-to-face interaction and adaptable layouts, seamlessly combining functionality, comfort and a welcoming presence for modern professional environments.
