

GATHER AROUND Modular

Features:

The epitome of customisable functionality, the Gather Around is design based on four standard seat modules and three standard back heights.

Gather Around is 100% made in Australia.

Options:

- Seat modules: Straight, Convex, Concave or corner using concealed metal joiners to connect them together. Refer to Gather Around configuration document for inspiration
- Seat height: Low, medium or high
- Upholstered with or without power or can be positioned at the front of seat
- Rear mounted table spanning across two seat modules and can be mounted at three heights
- Table brackets have integrated bag hooks
- Table can be flush mounted with power and data module
