# TEDDY

Tables & Workstations

By Zenith Design Studio

# A collection that infuses a dash of panache

The Teddy Boy style's flair for bold colour and individuality, would disrupt societal norms and have a long lasting influence. This dandyish and vibrant subculture serves as the inspiration for Zenith's new Teddy Tables and Workstations.

The range includes meeting tables, wall-mounted tables, standing-height tables, and workstations—delivering a cohesive design language across diverse work zones.

The Teddy collection channels the Teddy Boy aesthetic with its round tubular legs and flat, pronounced foot pads—an homage to the iconic drainpipe trousers and thick-soled shoes. A sturdy crossbar echoes the sharp hem of Edwardian-style jackets, while the frame is offered in all Zenith standard powdercoat finishes, reflecting the bold flair of Teddy Boy fashion.

As part of the range, Teddy offers fixed-height workstations available in various runs and pod configurations to suit a wide range of workspace layouts. Designed with flexibility in mind, these workstations support both individual focus and team-based tasks. Compatibility with Zenith's cable management options and screen systems ensure a clean, functional setup, while the cohesive design language ties seamlessly into the broader Teddy collection.

Teddy can also be configured into linear runs; these settings include the standing height tables which feature a footrail. Teddy's design is intentionally restrained and reduced in form. Engineered to be robust yet economical, its pared back components reduce material consumption without compromising on style.

For high-performance spaces, its robust yet minimalist construction ensures durability and efficiency, maximising functionality while maintaining a bold, vibrant presence.

The Teddy Project Table adds an innovative touch, purpose-built for dynamic team collaboration. It offers optional integrated power to be reticulated through the frame for portable devices, without sacrificing valuable worktop space with expensive ducts or lids. Project Tables are available with glides or castors to allow for agile placement.

# Zenith Design Studio

We're a design and experience centric studio who create furniture solutions based on our intimate understanding of the workplace and workplace behaviours. We apply our expertise in interior architecture and product development to create progressive, high performance workspace solutions.

In our Design Studio you'll meet our team of 30+ experienced product designers, mechanical engineers, product configurators, immersive experience developers and visual content creators. Our cyclical process of listening, investigating, experimenting, and learning, provides a proven platform for understanding the unique requirements of our clients.

**Zenith** | curators of the  
modern workspace

We've worked with interior designers, architects and workplace curators for many years. Together, we've developed a range of internal workspace environments. We work alongside these curators of modern workspaces to redefine the environments where people live, work, socialise, interact and learn.

Contemporary workplaces have to combine leading edge technology and physical elements in a way that produces productive environments for organisations. And every organisation is unique. So before we recommend a solution, we work hard to understand the organisation and the people who define its culture.

Our local teams and showrooms deliver the support you need. Our global logistics guarantees the highest quality product, service and delivery schedules.

**Showroom locations**

**Australia** Melbourne, Sydney, Canberra, Brisbane, Perth, Adelaide

**New Zealand** Auckland, Wellington, Christchurch

**Asia** Hong Kong, Shanghai, Singapore, Shenzhen
