# HULA Stool

Zenith

## Features:

Iconic, functional, and dynamic, this barstool is defined by a striking visual balance between the seat, base, and the orbital positioning of the footrest. Its height adjustable form is crafted from injected aluminium, available in a range of colours, with seating options in either upholstered or timber finishes.

Offered in both high- and low-back versions, it is designed to adapt seamlessly to workspaces, collaborative environments, hospitality settings such as restaurants and hotels, as well as residential interiors.
