# 3000 Collection

## Zenith

### Features:

"The 3000 collection is an admiring nod to one of our fave creative city on the planet - Melbourne", says Michael Alvisse of Schamburg + Alvisse.

Its fractured geometry whispers tales of the ancient fissured lava that once shifted the course of the Yarra River, shaping the city we know today.

The collection is available in a Standard and Splitback lounge. With many configurations to choose from, 3000 is the perfect setting for a private conversation or meeting space.
