

Emission Test Certificate

Wednesday, October 19th 2016

Supplier: Zenith Interiors Pty Ltd (101 Tulip Street, Sandringham, VIC 3191)

Sample Description: Rumba Workstation – 2 Stage Electric Adjust

Date Tested: October 2016 (Tested by FORAY Laboratories – NATA Accreditation 1231)

Test Method: Greenguard Specification “Standard Test Method for Determining VOC Emissions from Office Furniture Systems, Components and Seating Using Environmental Chambers”.

Emission Data:

Greenguard (Half Level Limits at 168 Hours)	Rumba Workstation (2 Stage Electric Adjust)
Total Volatile Organic Compound Emission limit: $\leq 250 \mu\text{g}/\text{m}^3$	Total Volatile Organic Compound Emission Rate: $< 0.08 \mu\text{g}/\text{m}^3$
4-phenylcyclohexene Emission limit: $\leq 3.3 \mu\text{g}/\text{m}^3$	4-phenylcyclohexene Emission Rate: $< 0.04 \mu\text{g}/\text{m}^3$
Formaldehyde Emission limit: $\leq 0.025 \text{ ppm}$	Formaldehyde Emission Rate: $< 0.0003 \text{ ppm}$
Total Aldehydes Emission limit: $\leq 0.05 \text{ ppm}$	Total Aldehydes Emission rate: $< 0.0018 \text{ ppm}$
All individual VOCs not specified above did not exceed one tenth of the Threshold Limit Value (TLV) industrial workplace standard. Some components previously tested in December 2015 as per certificate CV151123 which are incorporated in results above.
