# LIGHTLY™ Chair

## Zenith

### Features:

Lightly™ is the first stackable chair in the world to be made with the plant-based polymer EcoPAXX. Made from highly CO2 absorbent castor bean plants, EcoPAXX has a 70% reduced carbon footprint compared to standard polymers. With over 73% of Lightly's weight from renewably sourced and recycled material, it exceeds the world's highest safety and durability standards.

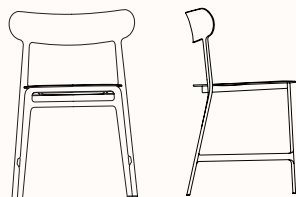

Light weight (at only 2.6 kilos) high-performance and small in profile, Lightly™ makes the ideal choice for an occasional chair for myriad spaces, with the lightest possible impact on the environment. Stacking 10 high.

Note: Lightly has been designed to be used primarily indoors. It is not recommended for prolonged outdoor exposure. We advise not to leave the chair outside.

**Design:** FORMWAY DESIGN

**Warranty:** 10 years

### Dimensions

#### LIGHTLY Chair

OW 500mm  
OD 465mm      SD 420mm  
OH 750mm      SH 440mm

(10 stackable) OH 1070mm
