

TORTUGA Table

Features:

A timeless design of these tables show the same design language used in the legs of the Tortuga armchairs and auxiliary tables, with a familiar leg construction running through the collection. The product's clean lines focus attention on the ash wood's beautiful natural grain. The black metal structure, used throughout the range, acts as a design accent, outlining the shape of the legs.

Design: NADADORA STUDIO for SANCAL

Warranty: 5 years
